Combination Tree Essences for Animal Care

Canadian Forest Tree Essences for Animal Care are highly dilute vibrational tinctures safe for oral consumption. They are produced using a modified version of a protocol developed in the 1930's by the English physician, Edward Bach. The essences are a wonderful adjunct to many animal treatment programs or used by themselves for the specific situations described in each essences. They are not, however, designed to treat or cure any specific ailment, and they should never be considered as a replacement for sound veterinary diagnosis and treatment.

Selection of Essences for Animals

Close observation of the signs of emotional and energetic imbalances, along with behavioral and physical problems, usually provides a clear indication of which essences to use. The essences are gentle, energetic formulations, and you know the animals in your care best, therefore trust your intuition to guide you in the selection of the best essences to give.

In addition muscle testing, pendulum dowsing and other methods may be used to confirm your choice of essences.

Administration of Animal Care Essences

Animals readily accept the essences as they are colorless, odorless and tasteless. The recommended standard dose is 11 drops added to their water 2x or 3x daily.

In Acute Circumstance

In acute situations, the Animal Care Essences may be taken every hour - or more frequently if needed - until equilibrium is restored. Put a few drops of essence in your hand and rub gently into the animal's gums or rub gently into neck, throat, and footpads or into their coat.

External Use

Essences may be added to topical creams or salves, a spray bottle to mist the air, bedding or directly onto your animal. Add the essences to their bath water.

Animal Responses to the Essences

Many animal lovers are highly attuned to the state of their animals. Because of this close bond, healing is often facilitated when a human companion takes the

same essence they give to their animal. A synchronistic healing response may occur, with results coming faster and being more noticeable.

In general with Essences for Animal Care look for:

- A fast response in a crisis situation, the lessening of signs of distress.
